

# YOUNESS MASROUR

## Developer

## About me

With over 4 years of experience in programming with [WinDev] and web design [FrontEnd], I have gained a deep expertise in the development of robust and high-performing software applications. My strong understanding of programming languages, databases, and software development concepts enables me to create customized solutions that meet the most complex needs

## Professional Experiences

### WinDev Developer, ABNSoft, Casablanca (2019 - Present)

- Creation of comprehensive management applications: Over the years, I have designed and developed several management applications for various companies. These applications have covered a range of needs, including inventory management and business management.
- Integration of MySQL databases: I have worked with MySQL to develop robust and efficient database management systems. I enhanced SQL queries for faster response times, and implemented caching techniques to optimize the overall user experience.

### Web Designer, Freelance (2022 - Present)

- Development with React: Through my experiences in website creation, I have gained strong expertise in development with React.
- I distinguish myself through my ability to create dynamic and innovative websites using Webflow, and integrating 3D products with captivating interactions, thereby providing an immersive user experience.
- My expertise also extends to optimizing the performance of websites, speeding up their loading times, reducing response times, and ensuring smooth navigation.
- Dynamic Website Creation: I have developed custom websites using WordPress, ensuring that they are both aesthetically appealing and functionally efficient.

## Professional Skills

- Proficiency in MySQL database management
- Skills in React, HTML, CSS, JS, and WordPress, Webflow
- Compétences en React, HTML, CSS, JS et Wordpress, Webflow
- Project management experience
- Thorough mastery of effectively using Mac and Windows systems
- Proficiency in Microsoft Office, including Word, Excel, PowerPoint
- Proficiency in design tools (Photoshop, Figma)
- Proficiency in 3D product creation
